Vision and Value for Copilot Studio

Unlock the full potential of Workplace AI with Copilot Studio

Copilot Studio lets you create custom AI assistants tailored to your needs. Use low-code tools to build and extend Microsoft 365 Copilot with enterprise data and scenarios.

The **Vision and Value for Copilot Studio** is a three phased engagement that introduces you to the value of conversational AI to extend Copilot to meet your business needs and develop custom copilots. This engagement will help you assess your needs, prioritize value realizations strategies and define a plan for transformation.

Aimed at IT decision makers and influencers across the business who wish to understand the possibilities for realizing business value with Microsoft Copilot Studio.

What we cover

- **Alignment on the potential for extending Copilot or building your own Copilots in your organization**
- **A prioritized list of business initiatives that can be targeted for enabling Microsoft Copilot Studio**
- **Recommendations for objectives and target results and next steps**

What to expect

At the conclusion of the engagement, clients can expect comprehensive outcomes from the **Vision and Value for Copilot Studio**. This includes a detailed vision and roadmap designed to enhance customer, employee, and operational outcomes through the strategic use of Copilot Studio. Additionally, clients will receive a robust business case outlining the value, costs, risks, and dependencies associated with the proposed solutions. Furthermore, a set of precise criteria and key performance indicators will be provided to evaluate and optimize these solutions, ensuring measurable and sustained improvements.

Facing challenges in optimizing your business processes and outcomes? Request a *Vision and Value for Copilot Studio* today and unlock strategic solutions tailored to your needs.
