

ACCELERATE YOUR AWS ADOPTION WITH SIMPLE FOR AWS

DATASHEET - Leverage Your Existing AWS Environment

Are you already on AWS and want to leverage the power of your existing AWS environment? Then we are the right ones to speed up your business!

As an AWS Advanced Consulting Partner and Authorized Commercial Reseller of AWS services, we take on many of the administrative and operational burdens so you can focus on your core business.

On top of that, we provide additional values: Speed up your AWS engine with consolidated billing and local

currency invoicing and take advantage of additional free components that bring you lots of value such as cost visibility and control. Gain transparency into your AWS account and costs, learn about unused and unassigned resources and define the right-sizing and right-costing of your cloud environment with SoftwareONE's cloud spend management platform PyraCloud and a 12-month-subscription to our cost optimization self-service platform GorillaStack for free.
