

Plan, Prioritize, and Leverage the Power of AWS

SOFTWAREONE SIMPLE FOR AWS

SoftwareONE Simple for AWS accelerates the realization and benefits of AWS. The service offering will help organizations:

- Understand and manage AWS spend
- Leverage SoftwareONE's Cloud Support
- Automate and consolidate AWS Billing

AWS Spend Management

PyraCloud Platform Cloud Management Module enables organizations to govern and manage budget and spend of their AWS. As an end-to-end offering, it provides full transparency of AWS resources so customers can govern, control costs and optimize by business units, applications or projects.

AWS Technical Support

SoftwareONE provides access to AWS experts and administrators who will own Incident and Service Requests:

- 24x7x365 support via SoftwareONE Global Service Delivery Centre
- Leverage SoftwareONE's Back-to-Back Support Agreement from AWS

Automated and Consolidated Billing

SoftwareONE will consolidate multiple end-user accounts and provide an organizational view of spend by business unit, location or cost center.

PROACTIVE COST OPTIMIZATION OF YOUR AWS
