

ACCELERATE YOUR CLOUD JOURNEY

Simplify Your Cloud Transformation with Improved Availability, Cost Control and Dedicated Support

We believe in the success of your business - whether small or large, old or new. To accomplish this, cloud services should be accessible to every business and every organization. Microsoft Azure is the cloud for modern business. Open, trusted and intelligent – Azure offers your organization endless possibilities, no matter what industry you are in or what business challenge you are solving. Azure enables you to move and scale faster, lower IT costs and drive innovation, all of which are the key to your digital transformation.

We are at hand to help you to save time and money with our professional Azure services tailored to your business needs. Realize the values of cloud with minimized downtime; reduce risk and save costs..

We help you find answers to the business challenges you face with an Azure solution that brings together everything you need — related products, services, and third-party applications. From DevOps to business analytics to the Internet of Things, you'll be up and running quickly with a scalable, cost-effective solution that works with your existing investments.

Choose the right platform to meet your needs

Are you looking for an end-to-end cloud service with the freedom to build, manage, and deploy applications on a massive, global network using your favorite tools and frameworks? Or are you impacted by the end of support for Windows Server and SQL Server 2008? Then it's time to think about the next steps and

choosing the right platform to meet all your business needs.

Our new **AzureSimple offering on “Modern” CSP** is specifically tailored for customers without existing Azure contracts or customers with an expiring Azure-only Server Cloud Enrolment (SCE) who cannot renew their contract after October 1, 2019.

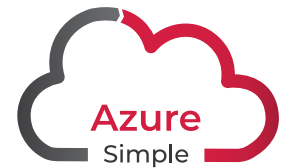

Why move to Azure?

- › **Security** – Rely on highly secure data centers working with two-tier authentication, including proxy card access readers, hand geometry biometric readers
- › **Costs** – Rent your server from Microsoft for a smaller monthly fee making it an operating expenditure like Office 365
- › **Scalability** – Only pay for what you need
- › **Hybrid Capability** – Take advantage of your on-premises resources as well as the benefits of the cloud
- › **Backup and Disaster Recovery** – Recover your data at a secondary site or straight into the cloud
- › **Compliance** – Make use of the most comprehensive set of compliance offerings compared with any other cloud service

“With Microsoft Azure you have unparalleled innovation, global expansion, IT flexibility along with security, stability and reliability in the cloud.”

OPTIMIZE YOUR CLOUD ENVIRONMENT
