Microsoft Teams Calling with Phone System

Now more than ever, businesses need a modern voice solution and phone system capabilities that combines unified communication and teamwork. Calling in Teams provides the features organizations need to deliver seamless, collaborative experiences for employees, business partners and customers. Because implementation of calling solutions can be complex and involves network remediation, O365 service deployment, telephone number provisioning/porting and device deployment, customers need partners with this highly specialized skillset.

Teams Calling Workshop

Introducing the Teams Calling Workshop – a modular engagement to experience the vision for Microsoft Teams with Phone System capabilities and Advanced Communication scenarios. This workshop is designed to guide you through the process of a simplified enterprise voice solution with reliable, high-quality, integrated calling. Through ‘art of the possible’ demonstrations, use-case design, and deep-dive planning you will obtain actionable recommendations to deploy and adopt Microsoft Teams Calling with Phone system.

Workshop Deliverables:

- **Assess**
  Gather information on current environment and practices for calling

- **Evolution of Voice**
  Showcase modern calling capabilities powered by Microsoft Teams

- **Build the plan**
  Build the plan for how to deploy and adopt Microsoft Teams Calling

- An evaluation of your current telephony and PBX needs
- Environmental and workload analysis, including existing infrastructure and telephony state
- Demonstration of the end-to-end Teams Calling experience to showcase Microsoft Teams Calling as your telephony solution
- Direction on how to transition various user profiles into a modern collaboration and communication environment
- Showcase the rich portfolio of 3rd party applications and devices that can complement the Teams Calling experience
- Customized, actionable recommendations you can follow to enable and adopt Teams for Calling
